FOR THE ASSOCIATE COMMISSIONER,
EXAMINATIONS

Mary C. Mulrean, Acting Director
Administrative Appeals Office

DISCUSSION: The nonimmigrant visa petition was denied by the Director, California Service Center, and is now before the Associate Commissioner for Examinations on appeal. The appeal will be dismissed.

The petitioner is a travel agency. It seeks classification of the beneficiary as an assistant manager trainee in office administration for a period of one and one-half years. The director determined that the petitioner has not demonstrated the proposed training is not available in the beneficiary's own country. The director also determined that the petitioner had not demonstrated that the beneficiary will not be placed in a position in which citizens and resident workers are regularly employed.

On appeal, counsel states that the proposed training is not available in Japan. Further, counsel states that the beneficiary will not be placed in a position which citizens and resident workers are regularly employed.

Section 101(a)(15)(H)(iii) of the Immigration and Nationality Act (the Act), 8 U.S.C. 1101(a)(15)(H)(iii), provides classification to an alien having a residence in a foreign country which he or she has no intention of abandoning who is coming temporarily to the United States as a trainee, other than to receive graduate medical education or training, in a training program that is not designed primarily to provide productive employment.

The regulation at 8 C.F.R. 214.2(h)(7) states, in pertinent part:

(ii) *Evidence required for petition involving alien trainee--(A) Conditions.* The petitioner is required to demonstrate that:

(1) The proposed training is not available in the alien's own country;

(2) The beneficiary will not be placed in a position which is in the normal operation of the business and in which citizens and resident workers are regularly employed;

(3) The beneficiary will not engage in productive employment unless such employment is incidental and necessary to the training; and

(4) The training will benefit the beneficiary in pursuing a career outside the United States.

(B) *Description of training program.* Each petition for a trainee must include a statement which:

(1) Describes the type of training and supervision to be given, and the structure of the training program;

(2) Sets forth the proportion of time that will be devoted to productive employment;

(3) Shows the number of hours that will be spent, respectively, in classroom instruction and in on-the-job training;

(4) Describes the career abroad for which the training will prepare the alien;

(5) Indicates the reasons why such training cannot be obtained in the alien's country and why it is necessary for the alien to be trained in the United States; and

(6) Indicates the source of any remuneration received by the trainee and any benefit which will accrue to the petitioner for providing the training.

(iii) *Restrictions on training program for alien trainee.* A training program may not be approved which:

(A) Deals in generalities with no fixed schedule, objectives, or means of evaluation;

(B) Is incompatible with the nature of the petitioner's business or enterprise;

(C) Is on behalf of a beneficiary who already possesses substantial training and expertise in the proposed field of training;

(D) Is in a field in which it is unlikely that the knowledge or skill will be used outside the United States;

(E) Will result in productive employment beyond that which is incidental and necessary to the training;

(F) Is designed to recruit and train aliens for the ultimate staffing of domestic operations in the United States;

(G) Does not establish that the petitioner has the physical plant and sufficiently trained manpower to provide the training specified; or

(H) Is designed to extend the total allowable period of practical training previously authorized a nonimmigrant student.

The petitioner's training program requires one and one-half years for completion. The petitioner wishes to provide the beneficiary with U.S. management techniques in a travel agency based in the United States.

The petitioner states that the travel business in Japan has long existed, however, there is very little opportunity to learn U.S. management techniques. No evidence has been presented that training in travel services does not exist in the beneficiary's home country. The petitioner also states that the management techniques are quite different and Japan does not have opportunities for U.S. style management training. Simply going on record without supporting documentary evidence is not sufficient for purposes of meeting the burden of proof in these proceedings. See Matter of Treasure Craft of California, 14 I&N Dec. 190 (Reg. Comm. 1972). Further, the beneficiary may not be classified as a nonimmigrant trainee, in the absence of a showing that the training is not available in his own country and that the purported training is not essentially experience in repetition, review, and practical application of skills. See Matter of Frigon, 18 I&N Dec. 164 (Comm. 1981).

Further, the beneficiary is offered the position of assistant manager in office administration for a period of one and one-half years at a salary of \$6,000 per year. The petitioner has not demonstrated that the beneficiary will not be placed in a position in which citizens and resident workers are regularly employed.

Beyond the decision of the director, the petition cannot be approved for other reasons. The petitioner's training program deals in generalities with no fixed schedule, objectives, or means of evaluation. No structured training program has been set forth showing the number of hours that will be spent on each activity or procedure associated with the hands-on training, the type of supervision to be given, objectives to be reached, or the means by which the instructor(s) will be evaluating the trainee.

In addition, the petition indicates that the petitioner currently employs three individuals. The petitioner has not shown that there is sufficiently trained manpower to provide the training specified.

In nonimmigrant visa petition proceedings, the burden of proving eligibility for the benefit sought remains entirely with the petitioner. Section 291 of the Act, 8 U.S.C. 1361. The petitioner has not met that burden.

ORDER: The appeal is dismissed.
